

After the Dust Settles

New build, full remodel, or the room that finally came together — construction leaves a fine, stubborn dust that ordinary cleaning misses. It settles on every ledge, inside every cabinet, and along every window track. *We take your space from job-site to move-in ready* — surface by surface, until it feels like home instead of a project.

— WHAT'S INCLUDED, ROOM BY ROOM —

◆ Every Room

- ◆ HEPA-filtered vacuuming — extra passes where construction dust sits heaviest
- ◆ Fine drywall & construction dust cleared from every surface, top to bottom
- ◆ Stickers, labels, protective film & adhesive residue removed
- ◆ Light paint specks & grout haze lifted where they release safely by hand
- ◆ Cobwebs cleared from ceilings & corners
- ◆ Baseboards, trim, door frames & doors wiped down
- ◆ Window sills, tracks & frames detailed; interior glass cleaned
- ◆ Light fixtures, ceiling fans & vent covers dusted
- ◆ Switch plates, outlet covers & handles wiped
- ◆ Closet & built-in interiors cleared of construction dust
- ◆ All floors vacuumed; hard floors mopped, multiple passes as needed

◆ Kitchen

- ◆ Cabinets & drawers cleaned inside, outside & on top
- ◆ Countertops & backsplash wiped free of dust & film
- ◆ Sink & faucet cleaned & polished
- ◆ Appliance exteriors detailed; protective film & stickers removed
- ◆ Hardware & pulls wiped down

◆ Bathrooms

- ◆ Tubs, showers & tile wiped free of grout haze & film
- ◆ Toilets cleaned & sanitized
- ◆ Vanities, sinks & faucets detailed
- ◆ Mirrors & glass polished streak-free
- ◆ Fixtures & hardware wiped; stickers removed

— AVAILABLE AS ADD-ONS —

Yours to add, whenever you'd like them

These aren't part of a standard post-construction clean — just let us know when you book and we'll fold them into your quote.

- + Inside the refrigerator
- + Inside the microwave
- + Inside the oven
- + Interior of any additional appliance

*Appliance **exteriors** — along with protective film, stickers and adhesive residue — are always included in your clean.*

— BEFORE WE ARRIVE —

A few things set your team up to do their best work

Have these ready and the crew can go straight to the detail work on the day of your clean.

- ◆ Power & running water are on at the property
- ◆ Large debris & construction materials have been hauled off
- ◆ Major installation is finished — flooring, fixtures & appliances in place
- ◆ Clear access to the space — a key, code, or someone on site

— WHAT SITS OUTSIDE A CLEANING SCOPE —

Honest & upfront, so there are no surprises

These belong to your builder or contractor rather than our cleaning team:

- Hauling away debris piles or construction materials
- Cured paint, joint compound or heavy grout haze that needs scraping or solvents
- Anything requiring solvents, scraping, or ladders beyond standard reach
- Inside walls, ductwork or HVAC systems
- Exterior windows, pressure washing or outdoor areas
- Debris left inside walls or subfloor cavities

Not sure which side of the line something falls on? *Just ask — we'll tell you straight, before the day of, so your quote and your clean match exactly.*

Ready when you are.
